People choose to live/work in Montana because...

Looking for a town with no traffic report, clean air, simple life, and kind people....

It wasn't the job at first but the lifestyle. As I grew with the business and eventually became a partner, the job came more into play, but then so did the lifestyle.

A summer job in Yellowstone brought me here, then I fell in love with Montana. I transferred to a Montana college and tourism marketing became my career.

The vast open space, quality of air and water.

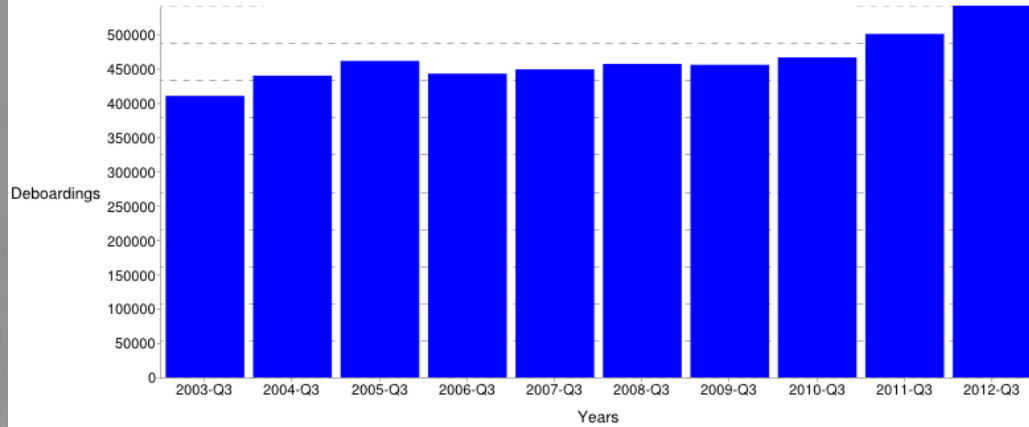

My wife and I thought it was a good combination of our favorite places in the world, there was plenty of business opportunity and a great place to raise a family.

I love to fly fish!
