

4TH ANNUAL ECONOMIC OUTLOOK MIDYEAR UPDATE

MONTANA'S ECONOMIC RECOVERY

The worst recession in a generation isn't over yet, but now is the time to start thinking and planning for the recovery. What will the recovery in Montana look like? Will it be a V, W, or even the dreaded L?

Will the recovery be different in Billings? How about in Kalispell, Bozeman, Helena, Havre, Great Falls, and Missoula? Each Montana community faces its own set of challenges and opportunities.

Join Bureau economists Patrick Barkey and Paul Polzin as they examine where Montana is along the road to economic recovery and what obstacles remain along the way.
